Met With Mrs. W. T. Smith
The American Legion Auxiliary met Tuesday afternoon at the home of Mrs. W. T. Smith, 701 East Third St., with Mrs. C. P. Tolleson, Mrs. E. A. Morsani, Mrs. Raymond Jones, and Mrs. Joe Jones as co-hostesses.
The president, Mrs. Ernest O'Neal called the meeting to order and announced that Hope will be host to the District American Legion Auxiliary meeting to

WOMEN who feel NERVOUS
caused by functional "middle-age" Do you suffer from hot flashes, weak, nervous, irritable, clammy feelings—due to the functional "middle-age" period peculiar to women (35-55 yrs.)? Then try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms! It also has what Doctors call a stomachic tonic effect!

Funeral for Former Resident Held Wednesday

Funeral services for Mrs. Allie Owens, 69, former resident of Hempstead who died at her home in Monahans, Texas Monday, were held at 2:30 today at New Hope by the Rev. T. P. Ford. Burial was in New Hope cemetery.

She is survived by four sons, Samuel C. and James A. of Monahans, J. Clive of Oakland, Calif., W. Arthur of Pecos, Texas and a daughter, Mrs. E. E. Parton of Monahans.

Mrs. J. B. Carman of Sweet Home, Succumbs Here

Mrs. J. B. Carman, 57, of Sweet Home died at a local hospital Tuesday morning at 10:30. She is survived by her husband, two sons, Dorris and Elgie A. of Prescott, two daughters, Mrs. Harold H. Collier of Hope and Mrs. C. W. Edwards of Prescott; three brothers, Steve and Bill Yarbber of Prescott, and Bob Yarbber of Malta, Texas; two sisters, Mrs. Alice Huskey and Mrs. Betty Rowland of Prescott.

Funeral services will be held at Sweet Home church near Prescott, Thursday, 2:30 p.m. with burial in Sweet Home cemetery. The Reverend Kirby, Reverend Thomas and Mr. Lyle Browning will conduct the services.

Mr. and Mrs. McLarty to New Orleans Ford Meeting

Mr. and Mrs. Franklin McLarty will leave today for New Orleans where Mr. McLarty will attend a regional meeting of Ford Automobile dealers. Meetings will be held February 27-28 at the Roosevelt Hotel.

The Doctor Says:

BY EDWIN P. JORDAN, M. D.
Written for NEA Service

Rheumatoid arthritis, also called atrophic arthritis and chronic infectious arthritis, is a serious condition. Many features of it remain unknown. It is particularly common in young adults and much more frequent in women than in men.

Rest, both for the joints which are affected and for the body as a whole, is always desirable. Simple remedies to relieve pain, providing they are not habit forming, are also helpful. Many victims have a tendency to anemia so that they may need iron preparations or occasionally blood transfusions.

The diet for patients with rheumatoid arthritis, especially during the early stages, should contain sufficient nutrient material and should be high in vitamins. Heat, massage and special exercises are often extremely useful. Surgery of the joints is indicated only in the final stages.

Most doctors recommend that any possible sources of infection, such as an abscessed tooth or chronically infected tonsils, be eliminated. This is probably advisable, but it all too frequently leads to unsatisfactory improvement in the joints.

A few people with rheumatoid arthritis seem to have been definitely benefited by a change in climate—a warm, dry climate being the most popular. Doctors also have used treatment with foreign protein injections with some beneficial results.

In recent years preparations containing gold, given by injection, have been widely employed in this country and in Europe for patients with rheumatoid arthritis. When used during the early stages, this seems to have brought about good results in many cases. Unfortunately, the gold salts have severe side reactions in many cases and have to be given with great care.

JOINTS RECONSTRUCTED

In the final stages, when the in-

DOROTHY DIX Disconsolate Mother

Dear Dorothy Dix: Last summer I ran away from home and got married. My husband and I are very happy. My closest friend has never ceased reproaching me for it, telling me how I have broken her heart and that she will never get over my marriage. She says she is so worried she is about leaving me what I have done to her by getting married.

DISGUSTED DAUGHTER
Answer: Few women have the ability to accept a situation and make the best of it. Most of them place themselves on never "getting over" things and they can nurse a grievance for a lifetime. This is your mother's case. Of course, she was naturally shocked and grieved by your running away and getting married while you were still a baby-sitter, but the deed was done and tears and reproaches wouldn't undo it.

Dear Dorothy Dix: Two years ago I married the only son of a very devoted mother and father. He was 19 and I was 21. I know his family disapproved of our marriage because he was so young, but they didn't try to stop it in any way.

I have a very dear friend who has had plenty of troubles with her in-laws and who put me wise as to how I was to handle mine, and that was to turn my husband against his mother and father as soon as possible. It has been a hard thing to do because no matter how hateful I acted to them, they tried in every way to be nice to me, buying me expensive gifts

and not noticing the way I treated them.
I have told my husband I will never go to their house again, but he insists on going even if I stay at home. What I want to know is this: Should I go to my mother-in-law's house and tell her I am sorry for the way I have acted, or should I just stick to my guns and take a chance on losing my husband? I know I am losing my husband's love, but my friend tells me that I am getting along fine and that I will soon be rid of my in-laws for good. Only I keep thinking how nice they have always been to me and how mean I am to them, and sometimes I am sorry.

UNHAPPY WIFE
Answer: You seem to have taken the devil for a counselor and she is dragging you down into a hell of bitter regrets from which you will never escape, unless you make a clean break with her right now.

You must have singularly little knowledge of life if you think that you can build a happy and successful marriage by alienating your husband from his parents, and by meeting all of their kindness and efforts to be friendly with you, with insults.

I know that many foolish brides, in their determination to monopolize their husbands, are guilty of this folly, but they do it at the peril. For deep down at the core of every worthwhile man's heart is the love of his parents, and while he may be weak enough, for the sake of peace, to let his wife

Charge 'Score' Campaign to Sell Marshall Plan
Washington, Feb. 25 — (UP) — A Pittsburgh steel executive charged President Truman today with use of "subliminal psychology" to sell the Marshall plan.
Ernest T. Weir, chairman of the National Steel Corp., made the charge in testimony before the Senate Foreign Relations Committee. He said the European recovery program (ERP) was foredoomed to failure and threatened the nation with its greatest depression.

Student May Enter Plea of Self-Defense
Ashland City, Tenn., Feb. 25 — (AP) — The defense was scheduled to call witnesses today in the trial of W. Ralph Abbott, 20-year-old Ark. man charged with murder in the slaying of an Illinois salesman.
Abbott is charged with slaying Pierce C. Calton, 38, of Park Ridge, Ill., last Oct. 20. Abbott had hitchhiked a ride with Calton when the salesman was shot while driving car here.

Defense attorneys, including Abbott's grandfather, former Judge H. B. Means, Sr., of Malvern, Ark., indicated they would seek acquittal on grounds of self defense.
The state called 11 witnesses yesterday after a jury composed mostly of farmers was empaneled. They included Calton's widow, who attended the trial with her 13-year-old son, Pierce C. Calton, Jr.
W. H. Schute, Cheatham county farmer, testified that Abbott attempted to leave after Calton's car crashed into a fence following the shooting. Schute said neighbors held Abbott and removed a pistol from his pocket.

Sheriff Vernon Harper testified that Abbott told him he fired in self defense in a struggle that resulted when Calton attempted to hold him up with his own pistol.
Abbott, a native of Fort Smith, Ark., was a student at Arkansas Polytechnic Institute before quitting school last fall.
Inflammation has subsided and only the stiffened and damaged joints remain, about the only treatment that can be offered consists of general measures of support and diet, and occasionally surgical reconstruction of the joints. Wonders have been worked in the latter field, but it is extremely difficult to construct a useful joint from one which has been almost entirely destroyed.

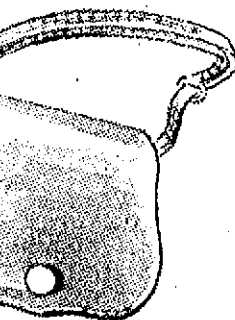

QUESTION: Is there danger in taking Vitamin E without a doctor's advice?
ANSWER: Very little is known about the functions of Vitamin E in the human body. It is still uncertain as to how much good this vitamin does, but so far as I know, harmful effects from Vitamin E have not been reported.

PANIC... Treacherous Killer
In America's never-ending parade of fires, panic claims hundreds of tragic victims year after year.
May you never be trapped in a deadly fire. But if you are, know what to do in *panic* and you'll increase your chances of escaping alive.
It is just as important to know how to prevent fires *panic* as to escape them.
How to avoid panic is only one of many things you'll learn if you interest your school, your club, your local authorities in a program to stop fires in your community.

Brigham Young

Definitely Out of NCAA Race
Salt Lake City, Feb. 24 — (AP)—
Brigham Young University's Cou-
gars are definitely out of the
NCAA basketball tournament in
New York City.
But, says Coach Floyd Millet,
they knew last summer they would
be. And their sights are set instead
on the Metropolitan Invitational
Tournament.
Coach Vadal Peterson of Utah
University, chairman of the
NCAA selection committee, said
he received official notice last
night from the national rules com-
mittee chairman, leaving the Cou-
gars from consideration despite the
fact they have just about clinched
the Mountain States Conference
championship.
Use of Guard Brady Walker, a
fifth year player, barred Brigham
Young from consideration, Peter
son said.
Walker was played under war-
time conference rules still in ef-
fect. N.C.A.A. eligibility rules limit
players to four years of competi-
tion.

Quarrel Leads to Death of Father, Son

New York, Feb. 23 — (UP)—
A 27-year-old former air force
sergeant argued and bickered with
his father until he could stand it
no more.
Some 50 subway commuters saw
the two, Felix Lefkowitz and his
father, Royal, 51, arguing on a
station platform last night.
A train roared into the station.
They saw the younger man push
his father towards the tracks.
But, as he fell, the father grabbed
the son's arm.
"I'm going to die, too," they
heard the son shriek.
The train passed over both their
bodies. The older man was killed
instantly. The son, his legs ampu-
tated, lived for two hours and 20
minutes.
"I pushed my father," he told
police. "I'm so glad. But he's not
good either. When he fell, he held
onto me, and I fell with him."
Police said the two lived alone
and had quarreled constantly since
the son returned from service in
the air force.

U. S. to Launch Sweeping Steel Price Probe

Washington, Feb. 25 — (UP)—
The government was mobilized to-
day for its most sweeping investi-
gation of the steel industry's price
policies.
Backed by President Truman,
five government agencies and a
congressional committee were
looking into the industry's recent
\$5 to \$7 a ton increase in the price
of semi-finished steel products.
The Justice Department, Com-
merce Department, the President's
Council of Economic Advisors, the
Federal Trade Commission, the
FBI and the joint Senate-House
Economic Committee, all are conduct-
ing investigations.
The Justice Department led the
way by sending FBI agents into
the offices of 16 steel producers
yesterday to see if there was col-
lusion in the price increase in vio-

Brigham Young

Definitely Out of NCAA Race
Salt Lake City, Feb. 24 — (AP)—
Brigham Young University's Cou-
gars are definitely out of the
NCAA basketball tournament in
New York City.
But, says Coach Floyd Millet,
they knew last summer they would
be. And their sights are set instead
on the Metropolitan Invitational
Tournament.
Coach Vadal Peterson of Utah
University, chairman of the
NCAA selection committee, said
he received official notice last
night from the national rules com-
mittee chairman, leaving the Cou-
gars from consideration despite the
fact they have just about clinched
the Mountain States Conference
championship.
Use of Guard Brady Walker, a
fifth year player, barred Brigham
Young from consideration, Peter
son said.
Walker was played under war-
time conference rules still in ef-
fect. N.C.A.A. eligibility rules limit
players to four years of competi-
tion.

Quarrel Leads to Death of Father, Son

New York, Feb. 23 — (UP)—
A 27-year-old former air force
sergeant argued and bickered with
his father until he could stand it
no more.
Some 50 subway commuters saw
the two, Felix Lefkowitz and his
father, Royal, 51, arguing on a
station platform last night.
A train roared into the station.
They saw the younger man push
his father towards the tracks.
But, as he fell, the father grabbed
the son's arm.
"I'm going to die, too," they
heard the son shriek.
The train passed over both their
bodies. The older man was killed
instantly. The son, his legs ampu-
tated, lived for two hours and 20
minutes.
"I pushed my father," he told
police. "I'm so glad. But he's not
good either. When he fell, he held
onto me, and I fell with him."
Police said the two lived alone
and had quarreled constantly since
the son returned from service in
the air force.

U. S. to Launch Sweeping Steel Price Probe

Washington, Feb. 25 — (UP)—
The government was mobilized to-
day for its most sweeping investi-
gation of the steel industry's price
policies.
Backed by President Truman,
five government agencies and a
congressional committee were
looking into the industry's recent
\$5 to \$7 a ton increase in the price
of semi-finished steel products.
The Justice Department, Com-
merce Department, the President's
Council of Economic Advisors, the
Federal Trade Commission, the
FBI and the joint Senate-House
Economic Committee, all are conduct-
ing investigations.
The Justice Department led the
way by sending FBI agents into
the offices of 16 steel producers
yesterday to see if there was col-
lusion in the price increase in vio-

Czechoslovakia's Struggle to Escape Communism Is a Gripping Drama of Europe

By DEWITT MacKENZIE
AP Foreign Affairs Analyst

Little Czechoslovakia's struggle to escape the Communist net is a gripping drama of Europe. It is a story of a small, mountainous country, once a part of the great empires of Russia and Austria-Hungary, now a pawn in the hands of the great powers. The struggle is a gripping drama of Europe, a story of a small, mountainous country, once a part of the great empires of Russia and Austria-Hungary, now a pawn in the hands of the great powers.

There is a double reason for watching this struggle closely, because from its inception it has been typical of what we know of Communist tactics. First there is the quiet infiltration by Moscow's trained technicians — the intense or fanatical of strategically placed cells in educational circles, in political bodies and trade unions — the capture of important executive positions. Then when all is ready, the death blow to liberty.

What precipitated the immediate crisis was the resignation of eight Communist ministers from the coalition National Front Government. President Benes declined to accept the resignations, declaring that the coalition must continue. Red Premier Gottwald insisted that the resignations be accepted and that the Communists be allowed to fill their places, but Benes was adamant.

Gottwald promptly threw his Red machine into high gear. His minister of the interior, a Communist — flung his security police before all government buildings and foreign embassies.

Opposition speech was at least partly stifled. Police arrested not only the heads of the anti-Communist Czech National Socialist

Party. Czechoslovakians to all intents were confined to the country by a ministry of interior order equating new visas on passports. In short, Czechoslovakia was transformed into a police state. Apropos of this it should be noted that this was made possible by the fact that the Communists hold the ministry of the interior, which controls the police. In taking over a state one of the first things the Communists always reach for is this ministry.

The big questions now are: Will the Russians dare challenge world opinion by using force to take over this small, thirty-year-old republic? If the Bolsheviks do use force, will the people fight? Or will the citizens have the determination to fight, will they have the strength?

This is a critical moment for the future of free men.

Hoover Calls for Federation of Europe

New York, Feb. 25—(UP)—Former President Herbert Hoover last night urged a regional federation of Europe under the United Nations to strengthen the Marshall plan and to complete its control of Eastern Europe. This proud and intensely independent republic is fast held out among the small nations in the Soviet zone of domination. True, Finland still keeps her chin up — but she isn't arguing with the Muscovites.

The diplomatic authorities in Washington say they have no doubt that Moscow is directing the political strategy of Klement Gottwald, Czechoslovakia's Communist premier.

At the moment Britain and Western Europe might remain neutral. This is not an accusation as to their good faith or their gratitude for our having spent so much American treasure and blood in their liberation from Hitler. It is the bare stark fact of divided and weakened European nations in the face of 2,500,000 men along the iron curtain.

Mr. Hoover said that unless Western Europe adopts some form of economic and political unity the Marshall Plan will fall short of its goal. He said a federation under the terms of the U. N. charter would help strengthen that organization.

Such an action would bring more vitality and strength into the United Nations, he said. "It would avoid the United States being involved in military alliances. Such an approach would point toward peace rather than toward war which is the base of military alliances. It could bring greater solidarity of action among all peace-loving nations."

He suggested that the proposed federation might cause greater cooperation by Russia. "Although the prospect is indeed very dim," Mr. Hoover said, "perhaps sometime the Russian regional group might also cooperate for the common welfare of mankind. More especially is this possible if they witnessed the consolidation of strength of other great groups."

A gray piece of cloth seen on a white ground in red light appears blue-green and on a black ground it appears red.

Ex-Tech Student to Trial on Murder Charge

Ashland City, Tenn., Feb. 24—(AP)—Trial of a former Arkansas college student on a charge of murder in the hitch-hike slaying of an Arkansas salesman was to open in circuit court here today.

The defendant is W. Ralph Abbott, 20, of Fort Smith, Ark. He is charged with the pistol slaying of James Byrd, 33, of Park Ridge, Ill., a suburb of Chicago. Byrd was slain while driving his car along the Memphis-Nashville highway near here last Oct. 20.

Abbott, the sheriff said, was arrested after the Calton car crashed into a fence. He is held in the Cheatham county jail here.

Abbott had been a student at Arkansas Polytechnic Institute at Russellville, but quit school to hitchhike to Nashville to seek a job, the sheriff added.

Truman Calls for Probe of Steel Prices

With President Truman in the Caribbean, Feb. 24—(AP)—President Truman today directed the Justice Department, the Bureau of Economic Warfare and the Commerce Department to make a full inquiry into the increase in steel prices.

Orders went out by radio from the presidential yacht, Williamsburg, said Eben Ayers, presidential assistant press secretary. Steel prices were increased about \$5 a ton last week.

The president has noted with concern the increases in steel prices," Ayers told reporters by radio telephone from the yacht to the escort ship Greenwich Bay in which correspondents are traveling.

"He has directed all interested agencies of the government to inquire into the basis for the price increase and the consequences of it."

The president, deeply unburned, is enroute from the Virgin Islands to Cuba. He will go from Cuba to Florida.

He wound up a three-day good-bye visit to Puerto Rico and the Virgin Islands yesterday.

Brig. Gen. Wallace H. Graham, his physician, worked to relieve a very red burn on the president's face, picked up while driving in the sun around San Juan, St. Thomas and St. Croix.

His last trip yesterday Mr. Truman kept his Panama hat pulled down over his forehead.

He said Gen. Graham was using a special ointment on the burn.

There was no word from the presidential yacht concerning official reaction to the latest disorders in Palestine.

The president is enroute to the U. S. naval base at Guantanamo, Cuba, where, after a brief inspection tomorrow, he will board his plane, the Sacred Cow, for a trip to the naval submarine base at Key West, Fla. He is due in Guantanamo tomorrow.

He expects to spend nine days in Florida combining work with pleasure. Members of his staff, including Special Counsel Clark M. Clifford, Presidential Assistant John R. Steelman and Fleet Admiral William D. Leahy, and Secretaries Matthew J. Connelly and William D. Hassett, are with him.

The Williamsburg, the presidential yacht, was making better than 14 knots, following a course to the south of Haiti instead of taking the shorter route to Guantanamo, in order to find calmer waters.

The president found his civil rights proposals to Congress claimed in the predominantly Negro Virgin Islands, which bade him farewell yesterday with music by a calypso band. His visit occurred while Southern Democrats at home were taking measures to counter his civil rights program.

Reporters, aboard the seaplane tender Greenwich Bay, which is serving as an escort ship, were in contact with the Williamsburg by radio telephone. The news party included three Negro reporters making a presidential trip of this nature for the first time in history.

Police Question Youth About Slaying

Colorado Springs, Colo., Feb. 24—(AP)—Investigators today intensively questioned a 17 year old youth Police Chief I. B. Bruce said told him he killed a 13 year old friend.

The youth, identified by Bruce as Alvin Lee Bunday, was questioned in connection with the death of James Fox.

Fox's body was found late yesterday where Bunday directed police to find it, the police chief said. The boy's head was crushed and his body was nude and covered with new fallen snow.

The police chief said Bunday admitted orally that "I killed him" and said he wrote a note to the Fox boy's father, Eugene Fox, demanding \$2,000.

A note found on a coal shed door at the Fox home read in part: "If you doubtless us in any way, will put seven 4s slugs in his head. The note was signed 'The Devil'."

Police Capt. Hugh Higgins said Bunday apparently was beaten to death after he disappeared Sunday night.

Inventor of Shorthand System Dies

New York, Feb. 24—(AP)—John Robert Gregg, 39 year old inventor of the shorthand system that bears his name, died yesterday. He was a former president of the National Arts Club.

State Leaders Talk About New Party

Little Rock, Feb. 24—(AP)—Formation of a new party by Democrats dissatisfied with policies of their present leaders was mentioned as a possibility today by Arkansas Democratic national committeemen.

The committeemen, Dr. R. B. Robins of Camden, proposed organization of "the conservative Democrats of America" if the Democratic party nominates President Truman as its 1948 candidate.

Robins refused to withdraw the civil liberties plank from its platform. A new party would be the "only solution" for the South, he said, "the Republicans have nothing to offer."

Dr. Robins told a reporter the Democratic national convention "might nominate a man who would be entirely acceptable" to the South.

"There are plenty of good, qualified Democrats other than Mr. Truman," he asserted.

Asked for names, Dr. Robins mentioned former Secretary of State James Byrd, Senator Henry Byrd of Virginia and industrialist Henry Kaiser.

If Mr. Truman is nominated and the civil liberties plank is retained, the Arkansas committeemen said he thinks "we ought to call our own convention and run our own candidate."

I believe this movement would have support all over the country, not just in the South," Dr. Robins said he does not see "how the people of the South could support President Truman."

President Truman has split up the Democratic party terribly, I don't think it has ever been torn up as it is now."

Dr. Robins said the split was caused by the president's civil liberties proposals, which Southern Democrats have called "anti-Southern."

"We shouldn't be too hasty with this," Dr. Robins said. "We should wait until after the convention meets July 12. The platform may be modified to our satisfaction and it is entirely possible something may be worked out there."

Guerrillas in Greece Reported Fleeing

Athens, Feb. 24—(AP)—Press dispatches said today a band of 400 guerrillas which raided Aigion has been routed and is being pounded by planes and warships. The rebels used heavy weapons in a midnight attack on the community, the dispatches said, but were finally repelled after fierce street fighting.

POPULARITY INCREASED

Book matches were highly popular when they first were made, fewer than a million being made during the first year. Today more than 200 million books are produced in the United States annually.

Annual Report on Welfare Activities

Ted R. Chisty, Commissioner of Panzavola, has just released the annual report of the Welfare Department for the fiscal year 1946-1947.

Mr. Chisty says, "It will be noted in this report that more money has been expended to more recipients of aid than in any other fiscal year in the history of the Department. We have done our best to assist our needy people so far as available funds would permit."

"It is obvious that the grants have been inadequate to provide assistance compatible with decency and health. There has, however, been no widespread suffering in Arkansas."

"Welfare grants have been supplemented by children and other relatives, friends, charitable organizations and kindly neighbors. Arkansas can well be proud of the thousands of children who are supported by their aged parents and keeping them off the Welfare rolls."

The report gives the following brief of activities for the year:

Old Age, Average number of recipients—33,139, Average Grant—\$14.40; Dependent Children, Average number of recipients—5,522, Average Grant—\$34.03; Blind, Average number of recipients—1,241, Average Grant—\$20.24; General Relief, Average number of recipients—2,074, Average Grant—\$12.10.

Total for the year:

Hospitalization, 5,532 patients; Child Welfare, 3,945 children; Crippled Children, 4,176 children; Recreational Eye, 286 operations; Glasses for 462 persons; Employment for Blind, 35 blind; Adjustment program served 38 blind.

Change in Policy

In November 1946 there was a change in policy and in grants, due to a change in Federal matching of money. Before October, 1946, the Federal government matched State funds dollar for dollar in Old Age assistance, Aid to Dependent Children, and Aid to Blind. In October, the Federal government began contributing \$5.00 for each old-age and blind recipient, and \$8.00 for each dependent child, plus one-half the remaining expenditures.

This additional money enabled the State to raise the maximums for the aged and blind to \$45.00. The maximums for dependent children were also raised. The percentage of deficit paid to these three categories was raised from 75 per cent to 95 per cent.

Unmet Needs Listed

The unmet needs of the State Welfare program were listed in the report as:

An institution for treatment and care of epileptics.

Hospital or nursing home care for the chronically ill and senile.

Supervision and training of the feeble-minded, especially feeble-minded children.

Taft Gunning for Second in Michigan

Detroit, Feb. 24—(AP)—Senator Robert A. Taft, back in his Washington office, left an impression today he'd like to be at least second in the affections of Michigan Republicans.

The Ohio aspirant of the GOP presidential nomination came here yesterday to denounce the Democratic administration's foreign policy in both Europe and the Far East.

Throughout his appearances he diplomatically conceded the state's "favorite son" rating to Sen. Arthur H. Vandenberg, who has said this is not a candidate.

At a press conference in a local hotel's "presidential suite," Taft was asked whether he was "bidding for second place" behind Vandenberg for Michigan's delegation to the Republican National Convention.

"You don't bid for second place," the Ohioan tactfully replied. "All you do when you come into a state like this is try to make as many friends as possible."

In his speech later to the Economic Club of Detroit, Taft highly praised Vandenberg's efforts as head of the Senate Foreign Relations committee. He mentioned his name eight times in giving the Michigan senator credit for "most of the recent improvements" in American foreign policy.

Housekeeper, Four Children Perish in Fire

Glens Falls, N. Y., Feb. 24—(AP)—Four children and a housekeeper were burned to death today after a fire broke out in a small house.

State police searched the ruins for the bodies of Mrs. Elizabeth Center, 65, the housekeeper, and Janice, 5, Amos, 8, Richard, 6, and Ronald, 4, children of Mrs. Elizabeth Mack, 30.

Mrs. Mack suffered severe burns on the arms, hands, back and face. She was reported in fair condition at Glens Falls hospital.

A son by a previous marriage, Vernon Dunkley, 10, escaped without injury, apparently by jumping from the porch roof of the small, one and one-half story frame house.

Some provision for medical care of recipients of public assistance. Dental care in the low income group.

New estimate of needs in the Public Welfare budget. It is obvious that recipients cannot live in decency and health on the present allowance," the report states.

With the rising cost of living, the 1945 food costs used in estimating the needs of recipients of Public Welfare are much too low. For instance, milk is counted as 13c a quart and lean meat as 32c a pound.

Extension of Old Age and Survivors Insurance to people engaged in agriculture.

Research into causes of poverty and dependency and their relationship to the economic well-being of the State.

IS IT SAFE TO BLOW NOSE HARD?

Answer: No, you might blow infection into ears. 2 drops of Penetro Nose Drops in each nostril reduce congestion, check watery flow and help lessen need for blowing. You breathe easier.

Minneapolis Teachers Out on Strike

Minneapolis, Feb. 24—(AP)—Minneapolis public school teachers struck today for higher pay and a full school year.

The strike was called by the AFT Teachers Federation which represents about half the city's 2,200 public school teachers.

Pickets were posted before some schools shortly before the 8 a. m. strike hour. No attempt was made to hold classes. The city's 94 elementary, junior high and high schools have a total enrollment of 65,000.

Last minute efforts of Mayor Hubert Humphrey, who arrived at midnight by plane from Philadelphia, and Superintendent Willard E. Goslin to avoid the strike failed.

Half a dozen pickets posted around the city hall and courthouse where school board offices are located, carried signs reading: "On strike for good education," and "On Strike for Better Education."

or were burned to death today after a fire broke out in a small house.

PENETRO NOSE DROPS

Seven Children Perish in Blaze

Burlington, Ia., Feb. 25—(AP)—Seven children in a 14-member farm family perished in a fire early today.

Frantic efforts of the parents, Mr. and Mrs. Ellsworth Waterhouse, were futile as the flames flashed through the two-story frame dwelling.

The children who died ranged in age from 18 months to 15 years. All were sleeping in upstairs rooms.

The parents, three sons, and the wife of one of the latter escaped. All the survivors had downstairs bedrooms. Two other children were away from home.

The dead: Betty Jean, 16; Helen Marie, 11; James Allen, 8; Doris Ann, 6; Thomas, 4; Mary Kay, 3; David, 13 months.

Grand Relief FROM SNIFFLY, STUFFY DISTRESS OF Head Colds!

A FEW DROPS WORK FAST... RIGHT WHERE TROUBLE IS

Instantly relief from head cold distress starts to come when you put a little Vicks Vapo-rinol in each nostril. And if used in time, Vapo-rinol also helps prevent many colds from developing. Follow directions in package.

The better the jobs they have with us

The better the job they do for you!

There are eight of the 25,000 people who are Esso Standard Oil Company today. From Ramona the stenographer to Lester the salesman, they have two things in common...they're mighty good people, in mighty good jobs.

The average length of employment for all our workers is over 14 years. Over 8,400 have been with us over 20 years. Their skill and loyalty on the job help a lot, day after day, in turning out quality products in this highly competitive business.

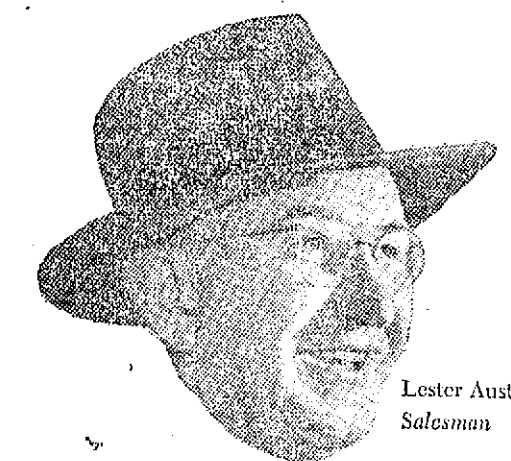

One reason for this unusually good working team is the unusually good jobs they have. Over 30 years ago this company set out always to be a good outfit to work for...to give the human needs of workers a key place in all planning.

With employees, their unions, and management all working steadily together, this policy has led to many unusual job advantages. It has kept wage rates high. It has led to employee benefit plans which include retirement with life income at 65, cash-savings plans, vacations with pay, generous accident and sickness benefits.

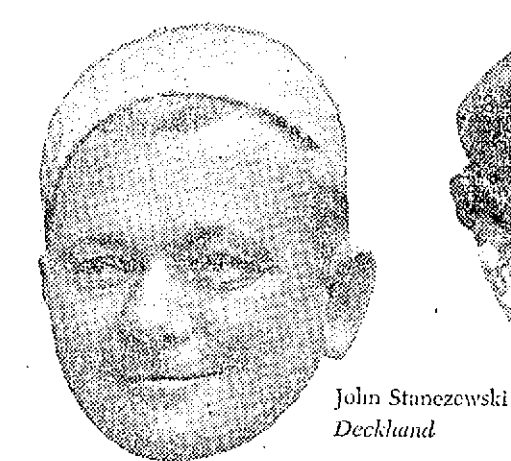

But the important point is how this combination of good workers in good jobs has had good results for so many people...Good for the workers, of course. Good for the company. Good for the thousands of stockholders who own the company. Good for the communities where these people make good taxpayers, good customers of local stores, good neighbors.

And good results for you, in your car or home or factory or on your farm.

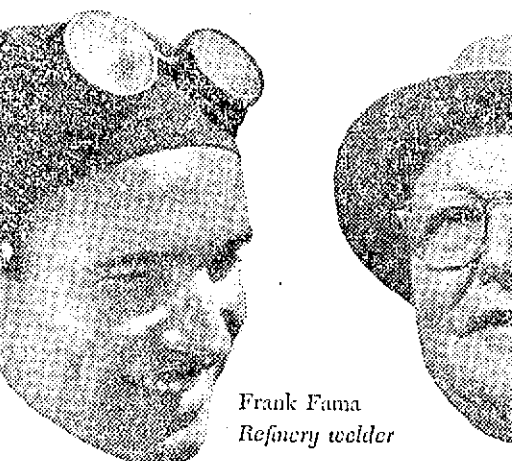

Today, for instance, the whole petroleum industry is working overtime to meet the greatest demand for its products in all history—and this staff of skilled, experienced people is your assurance that everything possible is being done with this company's facilities to meet your needs for more and better petroleum products.
